

ShopEase Customer Support Policy

1. Damaged Products

Customers who receive a damaged product should report the issue within 7 calendar days of delivery and provide photographs or other requested evidence.

2. Refunds

Approved refunds are normally initiated after the return or verification process is completed. The final credit time depends on the customer's payment method and financial institution.

3. Replacements

Replacement may be offered when an item is damaged, defective, or incorrectly supplied and a replacement unit is available.

4. Escalation

Customers may request escalation when an issue remains unresolved after the standard support process. Escalations are reviewed by a senior support specialist.

5. Delivery Complaints

Customers should contact support when an order is materially delayed, marked delivered but not received, or delivered to the wrong address. Support may coordinate with the carrier and seller.

6. Customer Communication

Support representatives should communicate clearly, avoid unsupported promises, document material actions, and provide the customer with the next expected step.
